

TO WHOM IT MAY CONCERN

Mr. Wong Chok Vai (Passport No. A 8314311) was the Project Director and Project Manager for Impian Tekad Sdn Bhd, the Malaysian contractor undertaking the installation of 4 x 160 MW gas turbines and their auxiliaries & piping works, 2 x 160 MW steam turbines and their auxiliaries & piping works, and the Balance of Plant for the 2 x 480 MW Haifu Combined Cycle Power Plant at Hai-Fu Village, Taoyuan Country, Taiwan ROC under Asea Brown Boveri Ltd.

Mr Wong Chok Vai exhibited professionalism, management skills and flexibility in coping with the challenges in this foreign country. At the height of the project, there were 323 staff under his charge, consisting of 230 Malaysian, 90 Thai and 3 Taiwanese workers.

Due to his reliability, and technical expertise, we were enabled to complete erection work according to the planned schedule, despite various external-party delays.

We highly recommend Mr Wong Chok Vai and his company in the undertaking of future similar large projects. We are convinced they will continue to be an asset to the construction industry.
